

Gianny Baidal

Experience

JRM Construction _ Senior VDC manager _ New York City, NY _ 2016 - present

- « Head of virtual design & construction department
- « Strong focus on instituting industry standards within the core & shell division and implementing innovative practices within the interiors group.
- « Utilization of technology to create effective solutions in support of the operations and business development teams.
- « Pre-construction coordination of MEP disciplines assisting design completion.
- « Execution of BIM strategy implementation across multiple projects, fostering strategic relationships with external resources & developing VDC staff.
- « Notable projects encompass the Hudson Yards Retail Podium development, where I was fundamental in the coordination and project delivery. Additional projects include the East Harlem Tutorial Program School (C&S) as well as Debevoise & Plimpton (interiors), among others.

Tishman Construction (AECOM) _ VDC manager _ New York City, NY _ 2012 - 2016

- « Led coordination of complex MEP systems within the World Trade Center Retail construction project spanning T1, T2, T3, T4 and the transportation hub.
- « Took in consideration deadlines, site conditions as well as design changes while communicating joint interests in this multi stakeholder project.
- « Produced for record MEP composites, federated models, logistics plans and graphics as well as proposals for business development.

Gratz Industries _ Designer _ Long Island City, NY _ 2010 - 2012

- « Developed concept & product design working with creative director.
- « Produced shop drawings & worked with fabrication personnel.
- « Implemented new digital fabrication methods to an analog production line.

Additional experience include positions in interior & landscape design
